

Marton Christmas

Parade 2020

MARTON

Christmas

PARADE

DECEMBER 12th

FLOATS ROLL OUT AT 3.30PM FROM FOLLETT STREET.
All enquiries to projectmartoncomms@gmail.com

Hello from Santa and his Project Marton helpers,

Congratulations for picking up an entry form for a float in this year's Christmas Parade, we hope you are having fun putting it together and we thank you for your participation in this traditional Marton event.

Our objective is to provide a colourful, safe, and fun filled parade. We want parade entrants to enjoy themselves as well as taking advantage of the exposure that having a float in the parade will bring.

Keep in mind when building your entry — children are our main judge and audience, and they particularly enjoy appropriately themed floats. Many of them still believe in the magic of Christmas so please don't dress up as Santa, as usual Santa will be the grand finale of the parade and we want to keep that magic alive by only having one "real" Santa.

Please read the attached information carefully, especially the Safety Issues. Again, we emphasise **NO THROWING LOLLIES OR ANYTHING ELSE FROM YOUR FLOAT**, kids will scramble for whatever is thrown and we do not want anyone getting accidentally run over.

We will be having a giant lolly scramble in Marton Park after the Parade so they will still get their sugar fix! If you want to hand out giveaways you are welcome to have some walkers alongside your float who can hand them out to the crowd.

We are really thankful for the local business support, please continue to support these businesses when you can.

Thank you again for your support, and we look forward to working together with you to have a fun day. The parade will not happen without your participation, so well done for being involved in this wonderful community event. Remember to come back to Marton Park where Santa will be arriving after the parade followed by the giant lolly scramble.

Please ring the Project Marton Team on 06 3277633 if you have any enquiries.

Floats to be in place by 2.45 ready for Judging. Floats will roll out at 3.30pm (following plane flyover courtesy of Brendon Deere)

Assembly Area

Follet Street Marton (alongside Marton Park) Line-Up Time: Please have your float / entry lined up by 2.45pm at the latest. Marshals will be there to help from 2.00pm.

Where to park on the Day

The parade route begins and ends at Follett Street adjacent Marton Park. Please enter from the Skerman Street end of Follett Street and park on the left-hand side of the road. You must then report to a Project Marton marshal to let us know you have arrived, and to complete an entry form if you haven't already done so (marshals will be wearing Hi-Vis vests). They will check your float to ensure it meets safety requirements.

The Parade Route

Depart from Follett Street heading towards Broadway,

Turn right onto Broadway,

Continue down Broadway until Morris Street and turn right,

Turn right onto Stewart Street, then right onto High Street,

Turn left onto Broadway and continue up Broadway until Follett Street where the parade officially ends.

It is traditional that many floats will continue on to the Edale Rest Home via Broadway and Bond St, so if you are able to continue there, the residents would love to see you!

Entry Form

An entry form is required from all float entries — see attached forms to be completed. This ensures we know who is in charge and to gather some brief information about your organisation so that the announcer on Broadway can let the crowd know about you as you go past.

Float Description

A float may be truck, car, trailer, bike, tractor, and indeed any piece of moving equipment. It should be decorated in a way that reflects your culture, community message or groups activities. Floats must be made safe and secure for passengers and must have something for them to hold onto in case of a sudden stop. You will also need to ensure all vehicles and drivers are road legal.

Performers

An entry may also consist of a group of performers eg. Marching team, band, dragon, etc. It is permissible for people over the age of 10 to perform on the road, but please ensure that they keep moving along energetically and be committed to their performance as they move along. You must not stop the parade to perform a static routine.

Costumes

We encourage all participants to be in themed costumes, uniforms, or clothes such as t-shirts that promote their activity. Lots of Sound/Be Loud, Lots of Action, Be Creative.

Your float may have taped or live performance of music. It is best to have a sound system that allows the music to be heard clearly, and live music should also be amplified.

Giveaways

There is a strict mandatory requirement of a NO giveaway policy from floats. The risk is that children may rush forward and go under the wheels of a float. This applies particularly to lollies; we will be holding a lolly scramble at Marton Park at the conclusion of the parade to cater for those needing a sugar fix. Marshals will be on the lookout for giveaways and will ask you to stop immediately.

Fire Safety

If your float is fully enclosed with passengers, you will be required to have a Fire Extinguisher in the towing vehicle within reach of the driver.

Float Marshals

Marshals (or walkers) are encouraged, but not compulsory, with every parade entry. Their responsibility is to walk with the float on the closed off roadways, one on each side of the float. Their role is to monitor their float at all times, keeping spectators well away from the vehicles. If your float is particularly long and / or made up of more than one vehicle, please ensure your marshals are constantly keeping an eye on the full length of the float. Vehicles should have their hazard lights on throughout the parade.

Safety Briefing

All drivers, head persons and marshals will be briefed by a Marshal before the parade as you line up at the Assembly point on Follet Street. No gaps between floats during the parade please! Large gaps between floats encourage the public to run between them, which is a huge hazard. Please keep the gap to a constant and safe level. Do not speed up suddenly to close any gaps as float passengers will not be expecting it and may fall off! Drive slowly to catch up to the float in front of you.

Adverse Weather

In the advent of adverse weather, it may be necessary to cancel the parade for safety reasons. Please listen out for any cancellation's notices, or phone our contact person.

SAFETY REQUIREMENTS

Please read carefully and have a copy for your driver / person in charge on parade day. The height of your entry must not exceed 4 metres. The width of your entry must not exceed 2.2 metres wide and must be able to easily manoeuvre around corners, roundabouts, etc.

Each entry will be inspected before the parade. If deemed unsafe a float will not be permitted to enter the parade until it is made safe.

The driver or Head Person, as named on the entry form, is responsible for all people on or in your entry. All people should be positioned in a safe place with ability to hold on to something secure should the vehicle stop suddenly.

The driver needs clear visibility front and rear. Should a street marshal give instructions to a driver, please comply as quickly as possible. If the entry is enclosed with passengers riding there must be a fire extinguisher readily available

Strictly no throwing anything from floats!

Not all the roads will be closed to the public. Only Follet Street from William Street to Broadway, and Broadway between Follet Street and High Street will be closed to traffic except parade vehicles. All other roads are open to the public and normal road rules apply, however treat all roads as if they are open and be alert for other vehicles, performers, and members of the public at all times.

All vehicles should be roadworthy and have a fully licensed driver.

Project Marton Inc reserve the right to refuse entry, or remove from the parade any entry that fails to comply with entry criteria, safety issues or behaves in a manner inappropriate for the 2020 public Christmas Parade (as judged solely by members of Project Marton team).

Marton Christmas Parade 2020

Entry Form

Saturday 12th December
2020 Parade Starts at
3.30pm

Please line up outside Marton Park by 2.45pm
Don't miss out on having a Float! Get in QUICK

To secure your place in the parade - return the SIGNED and completed **Entry Form** and **Safety Acknowledgement Form**

Float Name/Group _____
